Power your users and your AI agents with one platform.

Wallets, gasless transactions and payments for your users. Identity, spend control and payments for your AI agents.

WALLETS AND PAYMENTS RUNNING FOR

BLACK TIE · BLOCKMAZE by Finvasia · LIBERTUM · RIVEN

WORKING WITH

SKALE · turnkey

Everything you need, in plain words.

FOR YOUR USERS

Sign in with email, no seed phrase. — EMBEDDED WALLETS

Your users never pay gas. — PAYMASTER

Transactions that just go through. — BUNDLER · RELAYER

FOR YOUR AI AGENTS

Every AI agent gets an ID anyone can check. — IDENTITY · ERC-8004 · DIDs

Wallets your AI agents own. — AGENT WALLETS

50+ services agents can find and pay for. — DISCOVERY · x402

Prove Agent authority and verify every action. — AUTHORIZATION · KYI

KNOW YOUR INTENT

Agents pay by subscription, in stablecoins.
All through one SDK. — PAYMENTS · x402 · MPP

WHY ONE PLATFORM

One integration instead of four vendors.

The same wallet works for a user and their agent.

Every agent payment is checked before money moves.
